

# SPA

## RELIEVING MASSAGE

It relieves physical and mental fatigue.  
It improves joint movement.  
It releases muscle tension.  
It produces a sedative effect on the nervous system.  
It activates blood and lymphatic circulation, favoring cellular nutrition and toxin elimination.  
It stimulates vital energy center flow (chakras). It improves the mood.  
It increases vitality and promotes the feeling of general well-being.

## RELAXING MASSAGE

Its purpose is to alleviate the effects of stress; it is a slow, firm and progressive-pressure massage.

## REDUCTION MASSAGE

Reduction massages contribute to better irrigation and lymphatic drainage, release toxins and fats from the tissues and, at the same time, stylize body.

# SPA

## LYMPHATIC MASSAGE

Lymphatic massage helps eliminate fluids, facilitating evacuation into the venous stream.

## HOT STONE MASSAGE

This therapeutic resource consists in alternatively placing hot and cold stones on the skin; it helps to alleviate pain, achieve full relaxation, improve sleep, as well as revitalize and oxygenate the skin.

## BAMBOO CANE MASSAGE

This exclusive ritual revitalizes your body and relaxes your mind. Bamboo-therapy or bamboo cane massage combines the benefits of several different massage techniques into a single treatment, providing a pleasant sensation of relaxation while toning the whole body.

# SPA

## REFLEXOLOGY

This technique consists in attenuating or activating our body functions by applying digital pressure on specific spots of the foot, which are interconnected through the nervous system and energy meridians. By working on them, the disharmonic system is stimulated to bring it back to its natural balance.

## CLEANSING AND FACIAL MASSAGE

It consists in cleaning, gentle exfoliating and toning the skin; it helps remove surface dirt particles, eliminating deep impurities, by applying a pore refining mask and a toning lotion. After a perfect face hygiene, we offer a gentle massage with moisturizing cream.

## HAND SPA

Traditional manicure service combined with a hand skin protection and care treatment. Your hands are your introduction to the world; you can choose pure, classic or avant-garde enamel colors. This treatment consists in a hand exfoliating massage and hand moisturizing, filing, cuticle removal, callus extraction and nail polishing.

# SPA

## FOOT SPA

This pedicure service combines a treatment to protect and care for your feet skin.

This treatment consists in a feet exfoliation and moisturizing massage, filing, cuticle and callus removal, and nail polishing.

## TRADITIONAL MANICURE

This is a cosmetic treatment for nail beautification. This treatment consists in nail filing and polishing from classic colors to more daring and seasonal tones.

## TRADITIONAL PEDICURE

This is a cosmetic treatment for nail beautification. This treatment consists in nail filing and polishing from classic colors to more daring and seasonal tones.

# SPA

## CHOCOLATE FACE MASK

Therapy using chocolate-based products. It has a relaxing effect, decelerating skin aging, moisturizing and nourishing your skin, thus offering more elasticity. These masks also contain minerals and trace elements, such as calcium, iron, magnesium, phosphorus, vitamins A, B and C.

## WINE FACE MASK

It softens your skin, making you look younger and fresh. Its natural antioxidants help neutralize free radicals, boosting cell regeneration. This therapy is enriched with products made from red wine. Wine contains powerful antioxidants that eliminate toxins, decelerate aging and promote cellular vitality.

## OLIVE FACE MASK

It moisturizes your skin, offering a reaffirmation and regeneration effect by using products made from extra-virgin olive oil. These products have a high content of polyphenols, which are known for eliminating body smog. Its fresh fragrance awakens the senses.
